---

Mark, I spoke to Gary Moore this morning and he requested that I forward any information I had on any sampling that had been conducted at the Site. Attached are several maps showing sampling locations. It is "important" to note that these are draft maps and that the data have not been approved for use in the RI risk assessments or any other evaluations and should be used accordingly. Please call me at 817-832-8209 if you have any questions.

---

Chris Ruhl is responding to an oil spill at the Falcon Refinery Superfund

9567604

Site in Corpus Christi Texas. Reportedly 2 of the three storage tanks in the center of the refinery have failed and app 28000 bbls of oil have escaped into containment. Up to approximately 1000 BBls have escaped into a nearby wetland. The release is secured and Chris is overseeing pumping of recovered oil into barges.

Rafael/Gloria - Chris needs to coordinate with you on this release and cleanup. Please give him a call at 2147899587 ASAP.

If I can be of assistance or answer any questions, please contact me at (214)665-7548 or via email at [hansen.mark@epa.gov](mailto:hansen.mark@epa.gov).

Sincerely,

Mark Hansen  
Associate Director for Prevention and Response(6SF-P)  
Superfund Division
